

AI just collapsed the barrier to building.

Now your high schooler can build something real.

12 WEEKS

LIVE · SMALL GROUPS

HIGH SCHOOLERS

BUILD WITH CLAUDE CODE

THE 12-WEEK JOURNEY

**Build & Launch**
WEEKS 1–7**Learn to Grow**
WEEKS 8–10**Present It**
WEEKS 11–12

Live & small-group

Build with Claude Code

Twice a week, evenings

Certificate to share

**Builder Prize:** the first student in each cohort to land a real paying customer within a year gets tuition refunded.**Scholarships:** a limited number of funded seats each season, awarded by application — apply at www.build-young.com.*“The hottest new programming language is English.”*

Andrej Karpathy · Anthropic

“A one-person billion-dollar company would have been unimaginable without AI — and now it will happen.”

Sam Altman · OpenAI

“Everyone is a programmer — now you just say something to the computer.”

Jensen Huang · NVIDIA
